

Wood Products

Imagine a vacuum pod/cup for your cnc router where there is nothing to break. One that holds material down stronger, lasts longer, does not need the foam gasket, and all this at a more affordable cost than your factory cup.

CNC Routers

Better Vacuum Cups for all CNC Routers including Anderson, Biesse, Busellato, Heian, C.R. Onsrud, Komo, Northwood, IMA, CMS, SCM Routech, Morbidelli, Masterwood, Weeke, Thermwood, HolzHer, Homag and many more...

Proven Quality

Proven quality products that many major machinery manufacturers endorse. A name that fits the quality of their products; they truly are Better Vacuum Cups!

CONSISTENT RESULTS

BVC replacement HSK tool holder fork is now available. Testing is now complete after 10,000 + tool changes, no breaks and no visible wear to the fork. This fork will outlast your OEM fork by ten times. HSK1000 Fits HSK 63 F series

FL1000Q 50x132x29mm Quarter size flat table vacuum cup for the CR Onsrud grid table

FAQs

Q: Can I use my existing cups in conjunction with the BVC cups on my pod & rail?

A: Yes you can buy 1 or 100 cups. Our cups are the same height as the OEM cups. In fact ours are usually more accurate.

Q: Do you ship to other countries?

A: Yes, we ship world wide. For the most part we use UPS or US Priority Mail. We are happy to use a customers FedEx, UPS and DHL account as well.
